## *History of the Tiburon*

Tiburon continues to shake up the sport coupe field with its sharp styling, eye-opening performance and affordable price:

- The new Tiburon was first shown at the Frankfurt Motor Show in September 2001 and made its North American debut at the South Florida International Auto Show in October of that year.
- Hyundai's first-generation Tiburon was a direct descendent of the HCD-1 and HCD-2 concept cars, with flowing lines and lots of curves.
- The second-generation Tiburon, introduced in 2000, brought a harder edge to the original soft lines.
- The 2003 the platform and body were all-new
- For 2005, Tiburon received a major freshening, with revised headlights, side strakes, fog lights, taillights and wheels.

## *New for 2006*

The addition of a GT Limited trim level.

**The GT Limited provides the ultimate in refined performance:**

- Standard beige leather Interior surfaces

## ◆ 2006 Tiburon versus the Competition

### ◆ *Backed by America's Best Warranty™*

To effectively sell Tiburon, you have to be aware of which vehicles your customers are cross-shopping—that way, you're prepared when they come in asking questions. In the case of Tiburon, it goes against a wide variety of competitors—everything from performance-oriented cars, like the Acura RSX, to mainstream coupes, like the Saturn Ion. It also goes against domestics, like the Ford Mustang. The 2006 Tiburon is fully competitive with segment leaders.

#### Primary Competitive Set
