While the information contained in this book was deemed to be correct at the time of printing, specifications and equipment change. No warranty or guarantee is being extended in this book and Hyundai reserves the right to change product specifications and equipment at any time without incurring any obligation. Information as of October 2010.

### DEAR HYUNDAI SALES MANAGERS AND SALES CONSULTANTS,

These are very unique times for the automotive industry—while other companies are struggling, more and more new vehicle buyers are discovering the superior value and quality of Hyundai vehicles.

For the 2011 model year, the goal is to continue providing car buyers with a variety of models so they can select the one that best meets their needs. To that end, the all-new 2011 Sonata Turbo and Hybrid both demonstrate that buyers can get the features they want at a price they can afford.

This 2011 Pocket Guide has been designed to meet your needs. The content is organized so you have quick access to the data you need while out on the lot—there are charts that demonstrate the differences between trim levels, list the different options packages, list the available colors and pricing.

Remember, the 2011 Pocket Guide is just a brief overview—more thorough information can be found in the 2011 Product Source Booklet, as well as on the Sales Training Online website at www.hyundaidealer.com, where you will also find the Fast Facts for each model as well as the current Dare to Compare charts that note our competitive strengths.

I recommend that you check out all of these resources on a regular basis so you're always up to date on the latest Hyundai product information.

Wishing you continued good luck, good selling and customer satisfaction! Sincerely,

Gary W. Major

Manager, National Sales Training

Dany W. May in
