

HYUNDAI

2016 PRODUCT

Pocket Guide

Your Customer Experience

It's time for a new model year—and a chance to sell some great new product! With the launch of the all-new Tucson, and a number of significant updates to other models, we're fielding one of the strongest lineups in our history.

What a great time to be selling Hyundai. We continue to rely on you—our front-line sales team—to help our shoppers find the right vehicle to meet their needs. That's where this Pocket Guide comes in handy. Customers are looking for details to help them make informed automotive purchase decisions. Share the features and specifications on these pages with your customers—they'll appreciate seeing the facts laid out clearly.

Thank you for your continued dedication to the Hyundai brand. Here's to a rewarding 2016!

Derrick Hatami

Vice President of National Sales
Hyundai Motor America

WHAT IS ASSURANCE?

Assurance is Hyundai's pledge to provide exceptional customer service and owner satisfaction. As of May 2015, here are the latest benefits included under the Hyundai Assurance umbrella of services:

America's Best Warranty

- 10-year/100,000-mile powertrain limited warranty
- 8-year/80,000-mile Federal emission defect and performance warranty
- 7-year/unlimited mileage anti-perforation warranty*
- 7-year/70,000-mile California emission control systems warranty
- 5-year/60,000-mile new vehicle limited warranty
- 12-month/12,000-mile replacement parts and accessories limited warranty
- Lifetime hybrid battery warranty*

24/7 Roadside Assistance

- 5 years/unlimited mileage of roadside assistance standard
- Available 24 hours a day, 7 days a week, 365 days a year
- Includes towing; trip interruption service; and assistance with keys locked in car, flat tire, dead battery and out of fuel
- Enhanced Roadside Assistance provided by Assurance Connected Care included for one year on vehicles equipped with Blue Link
- Call (800) 243-7766 or press the Blue Link button

Car Care

- Free multi-point inspections with every service visit
- Hyundai factory-trained service technicians
- High-quality Hyundai original parts
- Hyundai Assurance Car Care mobile app includes:
 - Online service appointment scheduling
 - Access to Quick Reference Guides and maintenance schedules
 - Blue Link and Bluetooth® information
 - Quick link to Hyundai Assurance Roadside Assistance Dealer locator

Assurance Connected Care Powered by Blue Link

- Standard for one year on all Blue Link-equipped vehicles purchased or leased after July 11, 2014
- Enhanced safety features include:
 - Automatic collision notification and assistance
 - SOS emergency assistance
 - Enhanced roadside assistance
- Car care features include:
 - Maintenance alerts (Delayed availability on select models)
 - Monthly vehicle health report
 - Automated diagnostic trouble code notification
 - Vehicle web diagnostics
 - Recall advisor (Not available on all Blue Link-equipped models)
 - Service Link for service appointment scheduling

* Original owner only.

Warranty and Roadside Assistance

WARRANTY AND ROADSIDE ASSISTANCE

5-Year / 60,000-Miles New Vehicle Limited Warranty

The following parts are covered for indicated time/mileage limits for defects in material and workmanship:

- Radio & Sound System (CD/DVD Player, Navigation System, Bluetooth): All models 2006-2015 (except Equus): 3 Years / 36,000 Miles; Equus: 5 Years / 60,000 Miles. All 2016 models: 5 Years / 60,000 Miles
- Paint: 3 Years / 36,000 Miles
- Battery (12 volt): 3 Years / Unlimited Miles (100% covered 2 years; 25% of cost covered by Hyundai years 2-3)
- Air Conditioning Refrigerant Charge: 1 Year / Unlimited Miles
- Adjustments: 1 Year / 12,000 Miles
- Wear Items (i.e. Wiper Blades, Bulbs*, Fuses, Filters, Belts, Brake Pads & Linings, Clutch Linings): 1 Year / 12,000 Miles
- Accessories: (Installed by Authorized Hyundai Dealer) 5 Years / 60,000 Miles; (Sold over-the-counter) 12 Month / Unlimited Miles

*Except halogen bulbs which are covered 3 Years / 36,000 Miles

Hybrid Warranty

- Lifetime Hybrid Battery Warranty for original owner:
 - Applies to all U.S. 2012-2016 model year Sonata Hybrids
 - Covers failure of lithium polymer battery and provides battery replacement and recycling costs
 - Coverage is not transferable and does not apply to lease and commercial vehicles or vehicles serviced outside the U.S.
- 10-Year/100,000-Mile Hybrid Blue Drive Components Protection coverage is transferable to subsequent owners.
 - Applies to all U.S. 2011-2016 Hybrids
 - Blue Drive Components:
 - Hybrid Starter Generator
 - Hybrid Power Control Unit
 - Automatic Transmission including Traction Motor

10-Year / 100,000-Mile Powertrain Limited Warranty

- Coverage applies to Original Owner only effective 2004 model year. On 1999-2003 model years, coverage applies to Original Owner and immediate family members (i.e. wife, husband, daughter, son, stepdaughter, stepson).
- Excludes commercial application vehicles, such as taxi, route delivery, rental, etc.
- Second and subsequent owners covered under 5-Year / 60,000-Mile New Vehicle Limited Warranty.

7-Year / Unlimited Mile Anti-Perforation Limited Warranty

- Effective with 2005 model year, the Anti/Perforation/Corrosion coverage on all 2005 and newer vehicles has been increased from 5 years/100,000 miles to 7 years/Unlimited miles.
- Covers body sheet metal
- Covers perforation due to rust hole through body panel (rust from inside to outside)
- Excludes surface rust (which is 12 Months / 12,000 Miles)

8-Year / 80,000-Mile Federal Emissions Defect & Performance Warranty

- Catalytic Converter
- Engine Control Module (ECM)
- Onboard Emissions Diagnostic Device (OBDII)
- Other EPA (Environmental Protection Agency) designated emissions parts covered for 5 Years / 60,000 Miles (Exceeds 2 Years / 24,000 Miles required EPA Federal coverage)

7-Year / 70,000-Mile California Emissions Control Systems Warranty

- Applies ONLY to vehicles certified for sale in California and registered in: California, Connecticut, Maine, Maryland, Massachusetts, New Jersey, Oregon, Pennsylvania, Rhode Island, Vermont and Washington.
- Hyundai Motor America warrants the emission control system provided there has been no abuse, neglect or improper maintenance of the Hyundai vehicle.

California Emission Control Systems Warranty is in addition to Federal Emission Defect and Performance Warranty.

PZEV: 15 Years / 150,000 Miles (excluding DE, OR, PA and WA)

5 Year / Unlimited Mileage Roadside Assistance*

- Covers vehicle, regardless if Original or Subsequent Owner
- Includes full Roadside amenities:
 - Towing for Inoperable Disablements, including Accidents
 - Dead Battery/Jump Start
 - Change Flat Tire (Except vehicles equipped with Tire Mobility Kit instead of spare tire)
 - Lock Out Service (keys locked in car)
 - Gas Delivery (up to 3 gallons, where permissible, at no charge)
 - Trip Interruption Benefit

*Roadside Assistance for 2007 MY and newer includes 2 free services per benefit year. Subsequent tow services, within a benefit year, are free if the disablement is the result of a warrantable vehicle condition as confirmed by dealer's diagnosis.

A Hyundai Priority Sales Experience

A HYUNDAI PRIORITY SALES EXPERIENCE

Customer expectations continue to rise. Today, quality, value and satisfaction are often equal factors that customers study when considering their next vehicle. Like accolades and high marks for design, quality and value, being able to claim a best-in-class sales experience can be a huge selling point for Hyundai, for your dealership and for you.

Today's customers want useful information, expect credible expertise from the dealership staff, and, above all, they want to have their needs and opinions respected. The Hyundai Priority Experience is a philosophy for conducting business the Hyundai way that is rooted in our customer's core values, is representative of the Hyundai Sales Assurance pledge, and exemplifies the behaviors that customers expect in a satisfying sales experience.

A Hyundai Priority Sales Experience is based on the four basic requirements every customer has when shopping for, purchasing and taking delivery of a new vehicle:

Learn My Needs: Take the time to ask me questions, listen to me and gain an understanding of what I am looking for at every touchpoint.

Experience the Product: Be a product expert and deliver the information and answers I need to make an informed decision.

Work Out a Great Deal: Treat me with respect, value my time, and configure a package of products and services that are mutually beneficial.

Take Ownership: Provide me with the information, support and training I need to take full advantage of all that Hyundai has to offer.

A Hyundai Priority Experience also acknowledges that an experience is not limited to what happens on the lot. Rather, how you and your dealership are portrayed and represented before the customer ever visits your dealership can determine whether prospects consider us or not; and how the entire sales team treats new owners after they have purchased not only can directly influence repeat and referral opportunities but, indirectly, influence the consideration of a much larger base of potential Hyundai and dealership customers.

Learn My Needs

A customer-focused sales interaction requires that the customer's needs lead the process. Therefore, it is critical that you begin the relationship by taking the time to ask for and truly listen to the customer's "hot buttons" and become fully aware of what they specifically want and need from their shopping and purchase experience. This requires a consultative selling approach that utilizes several communication skills to build rapport as you ask questions, listen, and determine the customer's primary lifestyle and vehicle use.

Consider these Hyundai Priority Practices when learning about customer needs:

- Know everything you can about your products and the competition.
- Greet the customer in a timely manner.
- Make a great first impression.
- Offer a friendly, helpful greeting.
- Communicate with charisma and professionalism.
- Establish and build rapport.
- Discover their needs and wants.
- Find out and show respect for what the customer already knows.
- Show that you care ... take notes.

By getting to know the customers and their "hot buttons," you can more accurately match your customers to a vehicle and a retail experience that will satisfy their needs—satisfaction that can lead to a sale!

A Hyundai Priority Sales Experience (Cont'd)

Experience the Product

Very rarely will customers make a major purchase “sight unseen.” Rather, discerning shoppers want to try the product on for size—especially when that product is a significant purchase, such as an automobile. Customers expect Hyundai dealership associates to be a reliable source for the information needed to make an informed buying decision. Survey results show a direct correlation between your knowledge and expertise and customer satisfaction.

Keep these Hyundai Priority Practices in mind when helping your customer experience a Hyundai vehicle:

Stage vehicles for maximum impact and easy access.

- Conduct an appropriate, customer-focused product presentation.
- Use an organized walkaround format and involve the customer in operating key features.
- Use the SPACCED model to organize your presentation and stay focused on what matters to the customer.
- Incorporate Blue Link into every vehicle presentation.
- Inspire and encourage customers to want to take a test drive.
- Use the PEFC model to effectively demonstrate features on the test drive.
- Answer customer questions effectively, efficiently and honestly.

Helping your customer get familiar and comfortable with the product gives them a chance to make a personal connection between the vehicle’s features and their own wants and needs, a bond that encourages them to take ownership of the vehicle.

Work Out a Great Deal

Buying a vehicle is a major investment and customers are typically concerned about price, payments, credit, affordability and a number of other issues. The goal at this point in the process must be for everyone involved to listen, answer questions, and provide the information the customer needs to make an informed decision.

Customers want to do business with professionals who can be counted on to conduct negotiations using honesty and integrity. Unfortunately, many customers have a bias toward the automobile business and overcoming their lack of trust becomes the first hurdle to a successful negotiation and sale.

Consider these Hyundai Priority Practices when helping your customer and your dealership work out a great deal:

- Create a relaxed, comfortable and respectful environment.
- Introduce the sales manager and F&I manager early in the process.
- Build value by prioritizing the customer's needs ahead of yours.
- Explain the entire process up front.
- Negotiate for win-win and with full disclosure.
- Use checklists and keep all paperwork and notes together and organized in a deal jacket.
- Protect your customer's personal information by appropriately safeguarding deal jackets.
- Include the customer in all facets of the transaction.
- Be mindful of time and avoid leaving the customer unattended or waiting.

By staying focused on customer needs and helping guide them through the financial phases of the process in an open and transparent manner, you have a better chance of not only earning their business today but becoming a trusted and valued partner for their future needs as well.

A Hyundai Priority Sales Experience (Cont'd)

Take Ownership

The act of “taking ownership” is the moment in the process when the customers claim the vehicle and your dealership as their own. This is the moment, or rather a collection of moments, that must validate the customer’s decision to purchase a Hyundai. With so much at stake, it’s vital that you leave nothing to chance. That means planning and executing every detail of the delivery and the customer relationship that follows.

Employ these Hyundai Priority Practices to ensure success with delivery and beyond:

- Whether spot or scheduled delivery, plan and double-check everything.
- Create a WOW moment.
- Orient the customer to the host of benefits and services Hyundai offers owners, especially MyHyundai.com and Blue Link.
- Take the time to help the customer personalize their vehicle.
- Use the Quick Reference Guide (QRG) and complete the Delivery Checklist.
- Introduce the customer to the service department and help them set their first service appointment.
- Schedule a reconnect visit to answer questions and help the customer learn more.
- Be diligent in your follow-up and invite your customers to provide feedback.
- Be an ongoing resource for all your customer’s vehicle needs.

Taking ownership of a new vehicle can be one of the most memorable events in a person’s life. It’s also a great opportunity to solidify your relationship with the customer by creating a positive sales experience that encourages their loyalty to you, the dealership and the Hyundai brand.

The Hyundai Priority Experience and Hyundai Priority Practices are the result of extensive research and customer feedback. When put in place, these practices will help you get to know your customer better, provide the best possible customer experience, and increase overall sales satisfaction.

MODEL LINE TECHNOLOGIES

Active ECO

When the driver presses a button to engage the system, engine response and transmission control are automatically modified to help increase fuel economy. The key to achieving improved fuel economy is to apply light pressure to the accelerator, avoiding “jack rabbit” starts.

Adaptive Front Light System

On some vehicles equipped with HID Xenon headlights, this automatic adjustment feature is linked to the steering system and can turn the headlights into corners to ensure maximum illumination.

Anti-lock Braking System

This computer-controlled system helps maintain steering control during emergency stops by rapidly pumping the brakes on one or more wheels to help prevent the vehicle from skidding.

Apple CarPlay & Android Auto

When connected by cable, iPhone or Android-compatible phones will display their own familiar menu icons. Users have access to a number of their device’s standard applications such as phone, music, navigation maps and text messaging.

Backup Warning Sensors

When the transmission is in Reverse, ultrasonic sensors measure the distance between the rear bumper and an object within range. A beeping sound will warn the driver when it gets close to the bumper. When the object is very close, a continuous tone will sound.

Blind Spot Detection

When vehicles are following closely behind the car on either side in the driver’s “blind spot,” the system automatically detects them and warns the driver with visual cues in the outside mirrors, also providing an audible alert for safety. The driver can turn off the system if desired.

Blue Drive Hybrid System

Developed by Hyundai, this fuel-efficient system is a full parallel hybrid drive system which can operate on its electric motor, its gasoline engine or a combination of the two, depending on driving conditions and driver demands. Unlike most traditional hybrids, Hyundai’s system delivers excellent fuel economy on the highway because it allows greater use of the electric motor at speeds up to 74 miles per hour.

MODEL LINE TECHNOLOGIES (Cont'd)

Blue Link

Allows Hyundai vehicles to send and receive important or useful information. The system uses an enhanced cellular network with automatic roaming that optimizes connections and prioritizes emergency requests. Blue Link can help users find local points of interest, local authorities can track and control the vehicle if it's stolen, and users can even operate various vehicle features remotely.

Bluetooth

Once a compatible smartphone is synced with the vehicle's controls, drivers can make and receive voice-activated calls by pressing buttons on the steering wheel or instrument panel. For added convenience, music can also be streamed from the phone to the vehicle's audio system.

Brake Assist

This technology senses emergency braking situations, based on the speed of pedal application by the driver, and then applies additional braking force for maximum stopping power.

Downhill Brake Control

Designed to help the driver maintain vehicle control on steep, downhill descents by maintaining a certain speed without using the brakes. The driver engages the system by pressing a switch. It automatically disengages when the driver applies the brakes.

Drive Mode Select

Allows the driver to choose from different modes depending on conditions and driver preference to meet immediate needs.

Modes (that vary by vehicle application) include:

ECO — Fuel-saving driving Normal — Regular, comfortable driving

Sport — Dynamic driving Snow — Low-traction conditions

System automatically tailors vehicle response in each setting for optimal performance.

Driver Information System

This interface provides control over key systems like vehicle settings, phone operation, navigation, the entertainment system and Blue Link. It brings together these systems and gives the driver several convenient ways to access them.

Driver Selectable Steering Mode

With three operating modes, Comfort, Normal and Sport, this innovative system allows drivers to adapt steering characteristics to varying driving preferences and road conditions anytime they choose for extra comfort and convenience.

MODEL LINE TECHNOLOGIES (Cont'd)

Dual Clutch Transmission

Offers drivers the fuel economy of a manual transmission without having to operate a clutch pedal. Basically, it's a manual transmission that can be shifted automatically. With sophisticated computer control, shifts can be made in automatic mode or manually using Sport Mode.

Electronic Brake-force Distribution

This safety feature automatically adjusts braking levels at individual wheels that are carrying the least amount of weight for smooth, comfortable stops and to help prevent skidding.

Electronic Parking Brake

Increases comfort by applying the parking brake with the ease of a switch. Includes automatic vehicle hold that applies the parking brake when the vehicle stops and then releases as soon as the accelerator is pressed to help prevent the vehicle from rolling backward.

Electronic Stability Control

Applies braking, retards engine timing or reduces the throttle to help keep the vehicle on the driver's intended path. Electronic Stability Control is meant to enhance and assist conscientious driving habits and is not a substitute for safe driving practices.

Forward Collision Warning

Monitors the road ahead using the Lane Departure Warning System camera and alerts the driver with an alarm to apply the brakes when another vehicle is approaching at an unsafe rate of speed.

Gasoline Direct Injection

Provides a more direct path of fuel delivery to the cylinders, allowing for a more efficient control of the fuel mixture. A high-pressure fuel pump along with a higher than normal compression ratio improves engine power and helps increase fuel economy.

Hands-free Smart Trunk/Liftgate

This feature is designed to open the trunk or tailgate automatically for ease in loading and unloading cargo. With the Proximity Key in a pocket or purse, the driver approaches the trunk or tailgate and it opens in about 10 seconds. The detection area is approximately three feet around the trunk perimeter.

Hillstart Assist Control

This technology minimizes the vehicle from rolling backward when starting out on a steep hill. When the driver releases the brake, it helps keep the vehicle stationary for a few seconds, giving the driver time to apply the throttle.

MODEL LINE TECHNOLOGIES (Cont'd)

Integrated Memory System

Two different drivers can save their preferred settings for features like the driver's seat, the outside mirrors and the power steering column for added comfort and convenience.

Lane Change Assist

Performs a similar function to Blind Spot Detection by increasing the monitoring area while helping to detect vehicles approaching toward the rear and sides of the vehicle at high speeds and alerting the driver.

Lane Departure Warning

A small camera mounted ahead of the rearview mirror monitors lane markings on the road ahead. If the vehicle begins to drift across the lane marking without use of the turn signal, a warning light and chime are triggered to help restore the driver's attention.

Navigation System

Uses Global Positioning System satellites to determine the position of the vehicle and then display it on a dash-mounted screen via a DVD-based or hard disc drive map contained within the navigation system. Provides visual and audio prompts so the driver can get directions without looking away from the road.

Pandora Internet Radio

Lets users wirelessly stream Internet radio from their compatible iPhone or Android to the vehicle's audio system speakers. Users can create personalized radio stations from a single song, artist or composer.

Panoramic Sunroof

Gives passengers a wide-open feeling with a twin-panel design that covers the front and rear seats. The front panel opens while the rear panel stays in a stationary position.

Rear Cross-traffic Alert

Detects vehicles about to cross behind the car and warns the driver if cars are approaching from the side when backing out of a parking space.

Rearview Camera

Displays the view behind the vehicle when the transmission is shifted into Reverse. Lines on the screen provide a visual aid to help the driver position the vehicle into the desired parking space.

MODEL LINE TECHNOLOGIES (Cont'd)

SHIFTRONIC®

The automatic transmission's gated design offers drivers the fun and responsiveness of a manual transmission without having to operate a clutch pedal. Placing the shift lever into the manual mode enables the driver to shift gears by tapping the lever forward or back, or by using the paddles mounted on the steering wheel on some models.

Smart Cruise Control with Stop/Start

Senses the distance to objects in front and automatically applies the brakes to maintain a driver's selected distance. Will automatically come to a complete stop when the vehicle ahead stops. If the vehicle ahead resumes in less than three seconds, the system will automatically resume with the selected distance. If the delay is longer, the driver must manually resume driving.

Torsen-type Limited-slip Differential

Distributes torque between the rear drive wheels to enhance handling and performance. The differential will direct torque to the wheel with the most traction to provide better acceleration and direction control.

Traction Control System

Monitors wheelspin of the drive wheels during acceleration. It will alter engine output and use necessary braking to match throttle input to road surface conditions.

Twin-scroll Turbocharger

Directs more air into the engine than a single-scroll turbocharger while increasing the pressure entering the cylinders. This allows the air entering to be more densely packed for higher compression and better performance, contributing to a more efficient burn and fuel efficiency.

Vehicle Stability Management System

Monitors functions of a number of safety systems, including Electronic Stability Control, Anti-lock Braking and Traction Control, along with Motor Driven Power Steering and controls them seamlessly for the driver under most road conditions.

Product Information

Key Features

“America’s Best Warranty”

Accolades

- “Highest Ranked Compact Car in Initial Quality” J.D. Power and Associates 2014 Initial Quality StudySM
- 2015 IIHS Top Safety Pick (Sedan)
- 2015 NHTSA 5-Star Overall Safety Rating

Safety Technology

- 6 standard airbags (Sedan)
- 7 standard airbags including Driver’s knee airbag (GT)
- Vehicle Stability Management System:
 - Electronic Stability Control
 - Traction Control System
 - Anti-lock Braking System
 - Electronic Brake-force Distribution
 - Brake Assist

Powertrain Technology

- Two eco-efficient engines
- 1.8-liter Multi-port Injection 4-cylinder (SE, Value, Limited)
- 2.0-liter Direct-injection 4-cylinder (Sport, GT)
- 6-speed manual or 6-speed automatic transmission
- EPA Estimated Fuel Economy:
 - 27 city / 37 hwy / 31 combined (M/T – SE; A/T – Limited)

- 24 city / 34 hwy / 28 combined (M/T – Sport)
- 28 city / 38 hwy / 32 combined (A/T – SE, Value)
- 24 city / 35 hwy / 28 combined (A/T – Sport)
- 24 city / 33 hwy / 27 combined (M/T, A/T – GT)

Available Comfort and Convenience

- Exceptional roominess
- Leather seating surfaces (Limited, opt. GT)
- Heated rear seats (Limited)
- 4.3 inch color touchscreen audio with rearview camera (Value, Sport, Limited, opt. SE)
- SiriusXM Satellite Radio
- Blue Link[®] (Ltd, opt. Sport, GT)
- Driver-Selectable Steering Mode (SE, Limited, GT)
- 17-inch alloy wheels (Sport, Limited, opt. GT)
- Available features:
 - 7-inch Navigation system with rearview camera (opt. Sport, Ltd, GT)
 - Proximity key with push-button start (Value, Sport, opt. GT)
 - Dual Fully Automatic Temperature Control (Limited, opt. GT)
 - Panoramic sunroof (opt. GT)

EXCLUSIVE EQUUS TECHNOLOGIES

Blind Spot Detection (BSD)

Helps monitor traffic around the car. The system uses radar sensors in the rear bumper to warn the driver of a vehicle in the “blind spot.” The initial alert is warning lights in the outside mirrors followed by an audible alert.

Card-type Proximity Key

The Equus smart proximity key includes both key-fob and card-key types of vehicle entry for driver convenience. The card-type proximity key is the same size as a credit card, but slightly thicker and has no buttons – that makes it easy to keep the key in your wallet or purse without having to carry an actual key with you.

The Card-type key includes a removable, mechanical key, in case the card key’s battery becomes weak.

Electronically-controlled Air Suspension with Vehicle Ride-Height Control

Electronically-controlled Air Suspension with Vehicle Ride-Height Control automatically maintains consistent vehicle height and pitch regardless of number of passengers or load.

- When traveling at high speeds, vehicle height is lowered for improved stability and control as well as improved fuel economy
- When traveling on rough roads, vehicle height is increased to prevent excessive body movement and improve ride, with longer suspension travel

Continuous Damping Control provides continuous real-time damping force adjustment for all dynamic driving conditions:

- Reduces front end dive under braking
- Helps prevent rear end squat under acceleration
- Reduces body roll while turning
- Provides anti-shake when driving over imperfections in the road

Equus suspension tuning has three driving modes:

- Normal – provides the most comfortable ride.
- Snow – designed to handle best when driving in inclement conditions
- Sport – is more responsive, reduced body lean when cornering for a sportier feel

2016 Equus Technology Glossary

Front and Rear Parking Sensors

Uses sonar sensors in the rear bumper to sense objects near the rear bumper. Activates when the transmission is in Reverse. On-screen guides show objects within approximately 6 feet, 4 feet and 1 foot. At 6 feet, the system sounds warning beeps. The beeps get faster as the vehicle approaches the object. If the object is less than 1 foot away, the warning tone sounds continuously.

- Rear system is automatic; front system must be turned on for use

Heads-up Display (Ultimate)

Displays all of the relevant information in the driver's line of sight, which significantly reduces driver distraction.

- Speed, cruise control, turn-by-turn navigation, Lane Departure Warning, Blind Spot Detection, Forward Collision Warning and speed limit can all be projected in the driver's line of sight – projected items can be turned on and off
- Heads-Up Display viewing position is linked into the Integrated Memory System

Lane Departure Warning

Uses the forward camera mounted ahead of the rearview mirror to recognize lane markers. If the system detects that the vehicle is headed outside the markers, a warning light on the instrument panel flashes and an audible sound also alerts the driver.

Multi-view Camera System (Ultimate)

Offers multiple viewing angles by providing a “birds-eye” 360-degree visual around the entire vehicle. Four cameras are mounted around the vehicle:

- The front camera utilizes the forward-view cornering camera
- Two cameras are installed in the side mirrors
- The standard rearview camera is integrated for the rearview angle

Power Door Closure (Ultimate)

To enhance luxury and convenience, each of the four doors close automatically when the door manually approaches full closure.

- Passengers no longer have to slam doors or be concerned about completely shutting the door

Rain-repelling Acoustic Laminated Glass

Equus features acoustic laminated glass, which makes the interior quieter. In addition, thanks to their special construction, the windshield and front side windows are designed to repel rain, plus dirt, dust, grease and liquid can be lightly wiped clean.

- Acoustic glass features special sound-deadening technology to help keep the interior quiet.
- The rain-repelling coating helps water bead up and run off, which helps keep the windshield and side windows clear when it's raining for improved visibility
- This treatment is permanent and requires no special care

Rear Cross-Traffic Alert (RCTA)

Alerts the driver to approaching vehicles, when backing out of a parking space, with an audible alert and warning lights in the outside mirrors. Sensors can detect a moving vehicle as far away as 65 feet. The system will not consistently warn the driver of smaller objects, such as pedestrians or shopping carts.

Smart Cruise Control with Stop/Start Pre-collision Warning System

Uses the front radar sensor. The system operates like a conventional cruise control on an open road to maintain a set speed. When traffic appears ahead, the system's radar senses the distance to vehicles in front, automatically applies the brakes and gently slows the vehicle to maintain a desired distance between the Equus and the vehicle ahead.

If the vehicle ahead resumes in less than 3 seconds, the system will automatically resume with the selected distance. If the delay is longer, the driver must manually resume driving. Also senses the possibility of a collision, warns the driver and pre-charges the brakes to help provide maximum braking power in case of rapid deceleration.

EXCLUSIVE GENESIS TECHNOLOGIES

Automatic Emergency Braking (5.0 Ultimate, optional 3.8)

Applies the brakes when another vehicle is detected at an unsafe closing rate of speed. This system uses Smart Cruise Control and the forward camera from Lane Departure Warning. At speeds from 50 to 112 mph, it will apply partial braking and alert the driver of a potential collision. It will apply full braking at speeds from 5 to 50 mph.

CO₂ Sensor (optional)

Hyundai engineers discovered that occupants start to get drowsy when CO₂ levels are more than 2,000 parts per million. This system manages ventilation to always keep CO₂ at safe levels and help ensure maximum driver alertness.

Drive Mode Selector

Allows driver to choose from four modes depending on conditions and driving preferences:

ECO – Fuel-saving driving

Normal – Regular, comfortable driving

Sport – Dynamic driving

Snow – Low-traction conditions

Each mode alters transmission shifting, throttle response and stability control settings.

These settings are adapted to function seamlessly when equipped with optional HTRAC all-wheel drive.

Genesis Intelligent Assistant App

This combines Blue Link features, data from the vehicle, the owner's smartphone and the internet to send proactive notifications and recommendations. By providing the app their commuting details and access to their smartphone's calendar, drivers can have the app automatically estimate appropriate departure times and send reminders for upcoming appointments.

Haptic Steering Wheel (5.0 Ultimate, optional 3.8)

Haptic steering wheel vibration occurs as part of the Lane Departure Warning, Lane Keep Assist and Blind Spot Detection systems to help alert the driver to potentially unsafe conditions.

High Beam Assist (5.0 Ultimate, optional 3.8)

Automatically switches from high to low beams when an oncoming vehicle or a car in front is detected.

EXCLUSIVE GENESIS TECHNOLOGIES (Cont'd)

HTRAC All-wheel Drive (optional 3.8)

Provides increased stability and quicker response to slippery road conditions such as rain and snow. Uses an electronic, variable torque-split clutch located in the center transfer case with active torque control between the front and rear axles. Drive Mode Selector setting choices are adapted to function seamlessly with this system.

Lane Change Assist (5.0 Ultimate, optional 3.8)

Performs a similar function to Blind Spot Detection by helping to detect vehicles approaching toward the rear and sides of the vehicle at high speeds and alerting the driver.

Lane Keep Assist (5.0 Ultimate, optional 3.8)

Works with Lane Departure Warning to provide a driver-adjustable level of steering assist to help prevent inadvertent lane departure when the vehicle approaches the edge of a lane. This also alerts the driver with haptic steering wheel feedback.

Hands-free Smart Trunk with Auto Open

This feature is designed to open the trunk automatically for ease in loading and unloading cargo. With the Proximity Key in a pocket or purse, the driver approaches the trunk and it opens in about three seconds. The detection area is approximately three feet around the trunk perimeter.

Powertrain Technology

- Impressive power and responsiveness
- Dynamic rear-wheel-drive handling
- 3.8L direct-injection V6 engine
- 6-speed manual transmission
- 8-speed SHIFTRONIC® automatic transmission
- Front strut tower brace w/ low velocity control dampers
- Sport suspension calibration (3.8)
- Track suspension calibration (3.8 R-Spec, 3.8 Ultimate)
- Available high-performance Brembo braking system (R-Spec/Ultimate)
- Torsen-type limited-slip differential (R-Spec/Ultimate)

EPA Estimated Fuel Economy:

- 16 city / 24 hwy / 19 combined (3.8 M/T)
- 16 city / 25 hwy / 19 combined (3.8 A/T)

Comfort and Convenience

- Upscale interior refinement
- Sporty 2+2 seating
- 170-watt AM/FM/SiriusXM Satellite Radio/CD/MP3 audio system with 6 speakers (3.8, 3.8 R-Spec)
- 360-watt Infinity® AM/FM/SiriusXM/HD Radio®/CD/MP3 audio system with 10 speakers (3.8 Ultimate)
- Navigation System with 7-inch touchscreen (3.8 Ultimate)
- Blue Link® (3.8 Ultimate)
- Automatic climate control
- Aluminum foot pedals (3.8 Ultimate)
- Paddle shifters (with A/T)
- Proximity key entry with push-button start
- Heated front seats (3.8 Ultimate)
- Power driver seat w/ power lumbar (3.8 Ultimate)
- Bluetooth® hands-free phone system
- Leather-wrapped steering wheel

HYUNDAI

2016 SANTA FE

Product Information

Key Features

"America's Best Warranty"

Accolades

- 2014 *MotorWeek* Drivers' Choice Award "Best Large Utility"
- 2014 "Best 3-row Midsize SUV for the Money" by U.S. News
- Named 2014 "Family Car of the Year" – Cars.com (Sport)
- NHTSA 5-star Overall Safety Rating (Sport)
- ALG Residual Value Award Winner for Midsize Utility Vehicle (Sport)

Safety Technology

- 7 standard airbags
- Available Blind Spot Detection w/ Rear Cross-Traffic Alert
- Vehicle Stability Management System:
 - Electronic Stability Control
 - Traction Control System
 - Anti-lock Braking System
 - Brake Assist
 - Hillstart Assist Control
 - Downhill Brake Control

Powertrain Technology

- Three outstanding engines:
 - 2.4-liter direct-injection 4-cylinder
 - 2.0-liter turbocharged direct-injection 4-cylinder
 - 3.3-liter direct-injection V6

- 6-speed SHIFTRONIC® automatic transmission
- Front-wheel drive
- On-demand Active Cornering Control All-Wheel-Drive

Comfort and Convenience

- Choice of five-, six- or seven-passenger models
- Second-row 40/20/40 split fold-flat bench seat (Sport, Sport 2.0T, SE)
- Second-row Captain's Chairs (Limited)
- Third-row 50/50 split fold-flat-into-floor seats (SE & Limited)
- Available heated second-row seats
- Available heated steering wheel
- Optional audio system with 4.3-inch touchscreen and rearview camera (Standard on Sport 2.0T, SE, Limited)
- Available dual automatic climate control (Standard on Limited)
- Available Hands-free Smart Liftgate w/ auto open (Std on Sport 2.0T, Limited)
- Opt ventilated front seats

SHIFTRONIC is a registered trademark of Hyundai Motor America.

HYUNDAI

2016 SONATA

Product Information

Key Features

“America’s Best Warranty”

- **Modern, confident design**
- **Class-leading interior volume**
- **Key flexibility for Performance, Comfort and Fuel Efficiency priorities**
 - 3 engine choices – 2.4L, 2.0T & 1.6T
 - Drive Mode Select – Eco, Normal & Sport
- **Premium Comfort and Convenience**
 - Available panoramic or conventional sunroof & rear side window shades
 - Available heated & ventilated front seats
 - Available Hands-Free Smart Trunk
 - Standard color touchscreen audio systems
- **Leading-edge Technologies**
 - Smart Cruise Control with Stop/Start Capability
 - Apple CarPlay & Google Android Auto (Late availability)
 - Blue Link Telematics System
- **Class-leading Advanced Safety**
 - Available Lane Departure Warning
 - Available Blind Spot Detection w/ Rear Cross-traffic Alert & Lane Change Assist
 - Available Automatic Emergency Braking
 - Available rear parking sensors
 - Standard rearview camera

Product Information

Key Features

"America's Best Warranty"

Hyundai Lifetime Hybrid Battery
Warranty

Unique Design

- Unique front and rear fascia, headlights, wheels, and LED taillights
- Industry leading 0.24 coefficient of drag
- Class-leading passenger and cargo volume

Powertrain Technology

- Blue Drive fully parallel hybrid system:
 - 2.0-liter Gasoline Direction 4-cylinder engine
 - Hybrid Starter-Generator
 - Permanent magnet high-power electric motor
 - 270V Lithium Polymer Battery
 - Drive Mode Select — Eco, Normal and Sport
- Sonata Plug-in Hybrid (Available late 2015)
 - Class-leading All Electric Range of 24 miles
 - 360V Lithium Polymer Battery
 - Convenient charging at home or public stations
 - 120V (Level 1) or 240V (Level 2) charging
 - Eliminates "range anxiety" of all-electric vehicles
- 6-speed SHIFTRONIC® automatic transmission

Leading-edge Technologies

- Smart Cruise Control with Stop/Start Capability
- Apple CarPlay & Google Android Auto (Delayed availability)
- Blue Link Telematics System

Available Advanced Safety Features

- Lane Departure Warning
- Blind Spot Detection w/ Rear Cross-Traffic Alert & Lane Change Assist
- Forward Collision Warning
- Standard rearview camera

Premium Comfort and Convenience

- Available segment-exclusive panoramic sunroof & rear side window sunshades
- Hands-free Smart Trunk with auto open
- Electronic Parking Brake with automatic vehicle hold
- Available 60/40 split-folding rear seat (Hybrid only)

SHIFTRONIC and Blue Link are registered trademarks of Hyundai Motor America.

Product Information

Key Features

“America’s Best Warranty”

Accolades

- Named one of the “Top 10 Auto Show Debuts of the Year” from Cars.com

Safety Technology

- 6 standard airbags
- Available Blind Spot Detection w/ Rear Cross-Traffic Alert (Sport, Limited)
- Available Automatic Emergency Braking (optional Limited)
- Vehicle Stability Management System:
 - Electronic Stability Control
 - Traction Control System
 - Anti-lock Braking System
 - Electronic Brake-force Distribution
 - Brake Assist

Powertrain Technology

- 2.0L direct-injection 4-cylinder engine
- 1.6L turbocharged direct-injection 4-cylinder engine
- 6-speed SHIFTRONIC® automatic transmission
- 7-speed EcoShift® Dual Clutch transmission
- Front-wheel drive
- All-wheel drive with active cornering control

Comfort and Convenience

- LED headlights (Limited)
- Leather seating surfaces (Limited)
- Rear privacy glass
- Blue Link® (Limited)
- Rearview camera
- AM/FM/SiriusXM® Satellite Radio/HD Radio/CD/MP3 audio system with 6 speakers (SE, Eco, Sport)
- 405-watt AM/FM/SiriusXM® Satellite Radio/HD Radio/MP3 audio system with 8 speakers (Limited)
- Navigation System with 8.0-inch touchscreen (Limited)
- Bluetooth® Hands-free Phone System
- Dual Automatic Climate Control (Limited)
- Available Panoramic sunroof (optional Limited)
- Proximity key entry with push-button start (Sport, Limited)
- Available ventilated front seats (optional Limited)
- Hands-free Smart Liftgate w/ auto open (Sport, Limited)
- Dual-level cargo floor

HYUNDAI

2016 VELOSTER

Product Information

Key Features

“America’s Best Warranty”

Accolades

- NHTSA 5-star Overall Safety Rating
- Named “Best Value in America” for 2015 – from Vincentric

Safety Technology

- 6 standard airbags
- Vehicle Stability Management System:
 - Electronic Stability Control
 - Traction Control System
 - Anti-lock Braking System
 - Electronic Brake-force Distribution
 - Brake Assist
 - Torque Vectoring Control (Turbo models)

Powertrain Technology

- Two eco-efficient engines
- 1.6-liter direct-injection 4-cylinder
- 1.6-liter turbocharged direct-injection 4-cylinder
- 6-speed manual transmission
- 6-speed EcoShift Dual Clutch Transmission (optional Veloster)
- 7-speed EcoShift Dual Clutch Transmission (optional Turbo)

Available Comfort and Convenience Features

- Unique 3-door body style for easy rear seat access
- 7-inch multimedia touchscreen
- Gracenote Technologies
- Blue Link® (Gen 1 and Gen 2 available)
- Bluetooth®
- Pandora Internet Radio
- SiriusXM® Travel Link®
- Active Sound Design (Turbo models)
- Dimension premium audio system
- Panoramic sunroof
- Navigation system with HD Radio and Apple Siri “Eyes Free” integration
- Proximity key entry with push-button start
- Backup warning sensors
- Rearview camera
- Driver’s blind spot mirror
- Alloy pedals
- Automatic temperature control

Blue Link is a registered trademark of Hyundai Motor America. Bluetooth is a registered trademark of Bluetooth SIG, Inc.
