

CUSTOMER FEATURE HIGHLIGHTS

Be sure you understand and can operate the following:

- **Automatic or manual climate control system:**
 - Review defogging and defrosting procedures.
- **Tire Pressure Monitoring System:**
 - Make sure the customer knows what each icon means.
- **Windshield wiper/washer controls:**
 - Make sure the customer can wash the windshield and understands how to adjust time on the intermittent setting.
- **Audio system operation:**
 - Make sure radio stations are pre-set and the customer knows how to set them.
- **Explain the first service procedure.**
- **America's Best Warranty™**
- **Address the customer's recurring questions.**

I. APPROACHING THE VEHICLE—*Have the customer take and operate the keys, remote keyless entry system and security system*

- **Keys:** Every Tiburon has two keys that work in every lock.
NOTE: If you use a key to unlock a door and the security system is armed, opening the door will activate the alarm.

- **Remote keyless entry system:** Every Tiburon has two remote keyless entry fobs:

UNLOCK

Press (unlock icon) once to disarm the alarm and unlock the driver's door.

Press (unlock icon) twice within four seconds to unlock both doors.

PANIC FEATURE

Press and hold (panic icon) to activate the horn and flashing lights for 30 seconds; press again to turn off Panic Mode:

- Your customers can use this in a parking lot as a vehicle locator.
- **Theft-deterrent system:** All Tiburons have a theft-deterrent system with an alarm:
 - It is automatically armed every time the vehicle is locked via the remote keyless entry system.

ADDITIONAL FEATURES

- **Alloy wheels:** Improve looks, dissipate brake heat more efficiently, lighter weight improves fuel economy and handling.
- **Aerodynamic styling:** Reduces wind resistance for quieter cabin and enhanced efficiency.
- **Locking fuel-filler door:** On the driver's side for convenience and security.

II. ENTERING—*Help your customer make the adjustments when they sit in the vehicle*

- **Front seat adjustments:**
 - **Seat forward and back**
 - **Cushion seat height**
 - **Seatback angle**
 - **Lumbar support** (if equipped)
- **Seatbelts:** Adjust the belt height so it lies across your chest and midway over your shoulder nearest the door and not your neck:
 - To raise, pull it up.
 - To lower, push it down while pressing the height adjuster button.
- **Power windows:**
 - **Auto down** (driver's side only)—controlled by main switch:
 - Press the AUTO switch fully down to completely open the driver's window.
 - To close the driver's window, pull the switch up.
 - To stop the window at any desired position while the window is moving, pull up or down then release the switch.
- **Mirrors:**
 - **Outside:** To adjust the position of either mirror: Move the selecting switch to the R (right) or L (left), adjust mirror angle by pressing the appropriate direction on the perimeter switch.

NOTE: Heated lenses are activated automatically when the defroster is switched on.

III. DRIVING POSITIONING—*Help your customer make these adjustments before taking a test-drive in the vehicle*

- **Tilt steering wheel:** Adjust *before* driving:
Tilt: Pull the lever towards you and hold it to unlock, adjust the steering wheel to desired position, release the lever and make sure the steering wheel locks in place.

IV. DRIVER CONTROLS AND INCLEMENT WEATHER—*Explain these features before the test-drive*

- **Transmission:**
 - **Automatic transmission** (if equipped):
 - **Shiftronic®:** Move the shift lever into the Shiftronic® gate to the right:
 - Push the lever forward to shift up one gear.
 - Pull backwards once to shift down one gear.
 - Start in second gear when wheel slippage may occur from a stop.
 - Manually shift the transmission when driving up a hill to control gear hunting and when driving downhill to assist in braking.
 - Transmission will not let you up- or downshift outside of a safe operation level.

- **5-speed manual transmission** (if equipped):

- To shift into Reverse, lift the collar tab up and then shift into the Reverse gear position.

- **Headlights:**

- Rotate the switch to operate:
 - **High beam activation:** Push the lever forward.
 - **Flash feature:** Pull the lever toward you and release.

- **Fog light switch:**

- Push the switch to activate the fog lights.

NOTE: Fog lights only function when low beams are on.

IV. DRIVER CONTROLS AND INCLEMENT WEATHER (continued)

- **Cruise control:**

- **To set cruising speed:**

- **Turn on** by pressing the switch at end of the lever—the CRUISE indicator light on the instrument cluster will illuminate.

- **Accelerate** to desired cruising speed (above 25 mph).

- **To set:** Press the lever downward and release, then remove foot from the accelerator; your speed is set.

- **To accelerate:** Press the lever upward to increase cruising speed.

- **To decelerate:** Press the lever downward to slow cruising speed.

- **Windshield wipers:** Move the wiper/washer switch to one of the four positions:

- **MIST:** Move the switch upward to allow the wipers to make a single wipe to clear any mist on the windshield.

- **INT (Intermittent):** Move the switch downward to first position—wiper speed may be varied by rotating the “INT TIME” switch: “F” allows less time between wipes, “S” allows more time between wipes.

- **LO:** Second downward position for low-speed operation.

- **HI:** Third downward position for high-speed operation.

- **Wiper/washer operation:**

- Pull the wiper/washer lever towards you.

- When the washer is activated, the wipers automatically make two passes.

- The washer continues to operate until the lever is released.

V. COMFORT AND CONVENIENCE—Features that enhance the driving experience

Heater/ventilation/air conditioning:

Automatic climate control:

- **Auto temperature control:** Push to activate for automatic heating and cooling.

- **Temperature control switch:** Turn left for cooler temperatures, turn right for warmer temperatures.

- **Front defrost switch:** Press the switch to clear the windshield of fog and/or thin ice.

- **Rear window defrost switch:** Press the switch to activate/deactivate the rear defroster.

- **Defrosting and defogging:**

1. Set the temperature control to desired setting.

2. Set the fan speed to the highest setting.

3. Press the front windshield defrost switch.

4. To speed up defogging, select fresh air mode.

NOTE: On the automatic climate control system, turn the fan speed control to the desired speed to turn the fan on. Pressing the OFF button turns the fan off.

Manual climate control:

- You can cool the inside of the vehicle quickly by choosing **MAX/AC** mode on the airflow control:

- In the MAX/AC mode, the air conditioning is turned on automatically and the recirculation mode will be activated.

- The air conditioning cannot be turned off while in the MAX/AC mode.

- **Defrosting and defogging:**

1. Set the temperature control to the desired setting.

2. Set the fan speed to the highest setting.

3. Set the airflow control to the defrost position.

4. To speed up defogging, select fresh air mode.

Audio systems:

- **Setting preset memory buttons (AM, FM or XM):**

1. Press the power button.

2. Select AM, FM or XM.

3. Tune the audio control knob to the desired channel.

4. Press and hold any preset button (1–6) until an audible beep is heard.

NOTE: FM has three bands for up to 18 presets. XM has four bands for up to 24 presets.

- **XM category search:**

1. While in XM mode, press the DIR ▲ or CAT ▼ to scroll through music categories.

2. Press the audio control knob to select the desired category.

- **Adjusting the equalizer:**

1. Press the channel select knob to select the following sound qualities:
Equalizer → Bass → Middle → Treble → Balance → Fader → SW Level

2. Turn the audio control knob to adjust the sound quality.

NOTE: XM® Satellite Radio needs a clear view of the southern sky to ensure good reception. The trial XM® subscription ends three months following the vehicle date of sale. Your customer should contact XM® Satellite Radio at 1-800-XM-RADIO (1-800-967-2346) to renew their XM subscription. For more XM® Satellite Radio information, call 1-800-XM-RADIO (1-800-967-2346) or go online at XMRadio.com.

VI. KIDS AND CARGO—Rear seat features, cargo options and trunk features

- **50/50 split fold-down rear seat:** One side can be folded for cargo while the other remains up for a passenger.

- **Cargo volume:** 14.8 cubic feet

VII. SECURITY SYSTEM

- **Steering wheel lock:** Locks automatically when the ignition key is turned to the LOCK position.
- **After exiting—how to lock doors:**
 - Push (lock icon) once on the fob to lock all doors.
 - Push (lock icon) a second time to hear a confirmation chirp and for the lights to flash.
 - All Tiburons have a theft-deterrent system with an alarm that is armed automatically every time the vehicle is locked via the remote keyless entry system. When the system is armed, a red light on the driver's side dash blinks.

• **Fuel-filler door—refueling (driver's side):**

1. Pull the fuel release lever.
2. Remove the fuel cap.
3. Pump fuel (regular 87 octane): 14.5-gallons capacity.
4. Replace the fuel cap tightly: minimum 3–5 clicks.
5. Close the fuel door.

*NOTE: After adding fuel, always reinstall the fuel cap fully and make sure it clicks a minimum of 3–5 times. Failure to do this may result in the **Check Engine** light illuminating.*

VIII. INSTRUMENT PANEL—*What you see from the driver's seat*

Directly in front of driver:

Instruments:

• **Tire Pressure Monitoring System (TPMS):**

- **Low Tire Pressure Indicator light:** Illuminates when one or more of the tires is significantly under-inflated. Safely park the car and check the tires as soon as possible; inflate them to the proper pressure.
- **TPMS Malfunction Indicator light:** Illuminates and stays illuminated when there is a malfunction with the TPMS. Have the system checked by an authorized Hyundai dealer as soon as possible.

• **Stalk-mounted controls:**

- Left-hand stalk: Turn signals, headlights and fog lights
- Right-hand stalk: Windshield wiper/washer
- Center of instrument panel—upper portion:
 - Audio controls
 - Clock adjustment
- Center of instrument panel—lower portion:
 - Heater/ventilation/air conditioning controls
